

The Solare

Modern Australian

The Solare...full of fun and light filled days. An immaculately designed custom 2 storey home strikes a perfect balance between tranquillity and style. As the name warmly suggests "sun" in Italian one can only imagine the possibilities of this stunning entertainer. A non-descript side entrance allows this floor plan to do the talking. Purposefully designed, this home skilfully includes a separate dining area, generous multi-purpose room as well as a conveniently placed kitchen all with views of a beautiful landscape.
