

Monterey

Resort
Coastal

Think of sun-drenched days, beautiful sunsets and warm breezes and what comes to mind is the resort style feel this beautifully custom designed 2 storey home brings. With its name largely synonymous with its overseas coastal counterpart a home like this invokes a laid-back sense of style. A relaxing oasis, large windows with highlights and a generous size alfresco cleverly filling the ground floor with warmth inviting the outside in. With a practical open plan design, and dedicated living areas this home is low maintenance and together with a blend of custom materials and textures this home is perfect for unwinding yet still able to entertain all year round.
