

Industrie

Industrial Modern

This contemporary two storey designed home made up of sharp linear proportions and muted colour palette, is intended to accommodate growing families to thrive. With all the living and entertaining areas down-stairs and the gorgeous indoor/outdoor feel with large scale windows it is no wonder this home will evoke a sense of timelessness for years to come. Some soft landscaping of hedging and full -sized trees will soften the rugged looks of this attractive home. A well sized scullery is a budding chefs best friend coupled with a theatre room for those cosy movie nights. A dedicated study space upstairs is a great idea so that all bedrooms remain that sanctuary for a peaceful break of the hustle and bustle of city living.
